CPSC 4805 — Dr. Edwards

What you must do this week

Meet with me this week and discuss the SRS you submitted when you completed CPSC 4800. This is a single document that includes a title, an abstract, a problem statement, hypothesis, objectives, a timeline, a design, and a literature review.

After our meeting, you'll submit your SRS via GitHub. You must submit exactly one PDF document that includes a title, an abstract, a problem statement, hypothesis, objectives, a timeline, a design, and a literature review.
